Motto

To produce skilled professionals in computer applications.

From Principal cum Director Desk

Education stands as the most potent tool for transforming society. Here at Govt. College Chamba, we are committed to delivering top-tier education that inspires and empowers our students to become lifelong learners and valuable contributors to society. Our institution emphasizes both academic pursuits and extracurricular activities, striking a balance that nurtures well-rounded individuals. With a faculty comprising seasoned experts and dynamic educators, we boast a formidable academic backbone. Our dedicated and highly qualified instructors foster an environment conducive to research and critical thinking in the classroom. GC Chamba doesn't solely concentrate on academic course work encompassing Arts, Science, and Commerce; it also plays a pivotal role in fostering personal growth and confidence-building among students. The cornerstone of a reputable institution lies in its highly qualified and dedicated faculty, alongside excellent infrastructure, a well-stocked and up-to-date library, world-class sports facilities, innovative teaching methodologies, and a robust career guidance and placement cell—all of which are readily available at our college. Additionally, the college emphasizes skill-based education through the introduction of self-financed courses such as BCA, BBA, PGDCA, MBA, MCA and regular Courses like B.Voc. in hospitality & Tourism and Retail Management.

The broad objective of the MCA programme is to prepare graduate students for productive careers in software industry and academia by providing an outstanding environment for teaching and research in the core and emerging areas of the discipline. The programme's thrust is on giving the students a thorough and sound background in theoretical and application-oriented courses relevant to the latest computer software development. The programme emphasizes the application of software technology to solve mathematical, computing, communications / networking and commercial problems.

I am honored to extend a warm welcome to students, inviting them into an environment where they can fully explore and realize their potential and talents. The learning journey offered here not only enriches students but also empowers them to contribute meaningfully to the betterment and upliftment of the Society.

Dr. Rakesh Rathore

Principal

From the Desk of the Coordinator

Dear Candidates, I take pride in inviting you to be the member of the 2001-2004 batch of B.Sc. in the Institution. You are also welcome in 1st Batch of MCA in the Institution. The Institution has its own brand name in the academics as well as in the industry across the Globe. The students as well as the Department is being nurtured by a highly qualified faculty members, who are in the habit of taking any latest technological challenge head-on and delivering the best possible end results. The field of Computer Science is growing exponentially and has started touching almost all the aspects of daily life. With the growing Indian economy, you as professionals-to-be definitely have a prominent constructive role to play in shaping the day-today life of tomorrow by the use of computing technology and concepts. Human society has passed through 'green revolution', 'industrial revolution' and 'information revolution'. Now it is entering into 'knowledge revolution'. Education in general and 'computer education' in particular is gaining utmost importance in today's knowledge society. Computer skills have become the life skills for everybody. For high productivity and better quality, many business houses, Government departments and industries are making extensive use of computers. Extensive manpower is required to handle and operate these computers. Thus, there is pressing demand of computer professionals to work at various levels in Computer science and Information Technology (IT) industries. Highly skilled software professionals are required for nation building. They design and develop software products and systems. They are helpful in providing IT and IT-enabled services. They carry out overseas projects and earn huge amounts of foreign exchange for the country. They become entrepreneurs and establish IT industries, which provide employment for a large number of people. I am confident that your higher education journey through the Department of Computer Science will give you the richest experiences of your life. I am looking forward to welcome you in the Department.

ABOUT THE COLLEGE

Government Degree College Chamba, established on 15th May 1958 by the Government of Himachal Pradesh, is a premier institution located in the picturesque and culturally rich Chamba town. Initially set up in the historic Akhand Chandi Palace, the college now functions from two campuses — the first campus in the heart of Chamba town and the second campus at Sultanpur, which serves as the administrative and main academic unit. The college is affiliated with Himachal Pradesh University, Shimla and is recognized under sections 2(f) and 12(B) of the UGC Act, 1956. It was re-accredited with a Grade "B++" by NAAC in 2022 and is fully financed by the Government of Himachal Pradesh and UGC. The institution has adopted the Choice Based Credit System (CBCS) for undergraduate courses since 2013-14 under RUSA and yearly system in 2018-19.

New Initiatives: MCA Program

Starting from the academic session 2025-26, the college is introducing Master of Computer Applications (MCA) under self-financed mode, affiliated with Himachal Pradesh University, Shimla. The MCA program aims to equip students with Computer & IT skills, strategic thinking, and Software industry-ready capabilities. The program is approved by AICTE, ensuring high standards and national-level recognition.
